

Newly Planted Borough Regulated Trees

- & -

Please Do

- Remove grass or weeds from the base of the tree
- water the trees thoroughly particularly during dry spells.
- Be careful to not damage the bark of the tree when mowing or edging.
- Call our office 610-933-8801 if trees appear to be in poor health.

Please Don't

- Pile soil or mulch around the base of the tree.
- Excessively water or water when there has been plenty of rain.
- Cut surface roots, dig or tie anything to the tree that can restrict its growth.
- Prune, spray or fertilize the trees.
- Modify existing tree stakes (there to help the tree)
- Attach any ornaments or lights as the tree is establishing.
- Plant flowers directly around base of the tree as they compete with developing tree roots for space and nutrients.
- Install any hard landscape features around the tree.
